RFP 2001-25
AMENDMENT # 5

Replace 4.13.a.5 (added in Amendment #3) with the following:

During the acceptance period, the percentage of specific virtual tape mounts satisfied from cache must be equal to or greater than the percentage specified in the response to 5.7.g. This percentage will be determined from tape mount monitor records.

Add 5.7.g as follows:

- g. It is desirable that 95% of specific virtual tape mounts measured over each shift will be satisfied from cache. Please specify the minimum percentage of all specific virtual tape mounts that will be hits (satisfied from cache), when measured over each "shift", as determined from tape mount monitor records. If the percentage is less than 95, how much additional cache would be required to bring that percentage up to 95%?

A handwritten signature in black ink, appearing to read "J. B. Edmonds", written over a horizontal line.

J. B. Edmonds, Deputy Director
Acquisition Services Division
